REFRESH

Homeowners and businesses have relied on Ruud for quality craftsmanship and pioneering innovation since 1889.

Tested for toughness and designed to exceed expectations, our air and water products are proudly built to perform in any environment and last for years to come. To convey our rugged brand spirit, we've created refreshed elements to communicate our story in a way that's uniquely Ruud. Use this guide to help bring our brand to life for trade professionals and consumers.

NOTE: *Intended for use beginning January 2025.*

STRATEGY

To help promote brand consistency while providing the freedom to design for maximum messaging impact, we've developed both a fixed and a flexible approach to help visually express **the Ruud brand**.

Fixed Elements

- CORE, NON-NEGOTIABLE -

Fixed elements provide a cohesive, on-brand visual experience. These core elements provide efficient, cost-effective marketing implementation across businesses.

Ruud Logo & Tagline

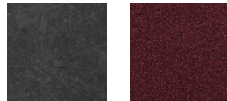

A Love of Thunder Font

A LOVE OF THUNDER

Rugged Texture

& Bolt Frames

Flexible Elements

- REFRESHED & EXPANDED -

Flexible elements provide visual variety for the Ruud brand, allowing creative freedom to best design for the message, audience and product category.

- **Expanded Color Palette (including PMS 185)**
- **New Secondary Font (replacing Futura with Roboto)**
- **Refreshed Creative Assets**
- **Expanded Imagery**

NOTE: New, unanticipated creative opportunities may drive future flexible elements.

MESSAGING FRAMEWORK

Our messaging framework is comprised of key words and statements that convey our brand position, principles and priorities. Leverage this communication resource to produce consistent, on-brand copy that resonates with our key audiences.

Brand Messaging Framework

BASICS

With our refreshed brand, we've kept some core elements and added new ones to help create a look that's distinctly Ruud.

Logos

3D Logo

This version is the approved logo for usage on all internal and external communications. The tagline should be locked up with the logo whenever possible.

CLEAR SPACE

When placing the logo near other graphics and/or text, use the visual guideline above to maintain approved distances.

Flat Logo – Color (PMS 185 and Black)

This version of the logo should be used sparingly when the 3D logo can not be used.

Flat Logo – Black and White

This version of the logo is used only when a piece is one color, black only.

COLORS

The Ruud brand features a refreshed color palette to create enhanced flexibility and visual impact in design.

ELEMENTS

We've expanded our brand elements to provide even more ways to tell the story of Ruud innovation and rugged reliability.

Reliability Bolts

The Reliability Bolts add dimension to the brand and reinforce the idea of rugged, long-lasting performance. They may be used in pairs or individually in creative ways to bring visual interest to your layout.

Power Plates

The Power Plates provide a quick, impactful visual reminder of Ruud's reliability.

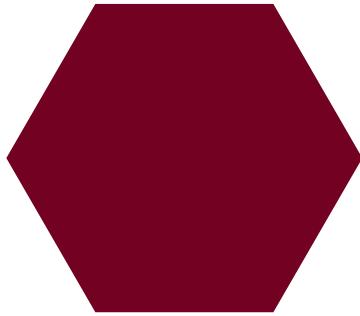

Rugged Textures

The expanded set of Rugged Textures provides additional design flexibility for trade and consumer communications and can be used for backgrounds or large callout areas.

ELEMENTS (CONT.)

Our Bolt Frame graphic device creates a point of interest around your subject matter, highlighting key points of product innovation and messaging.

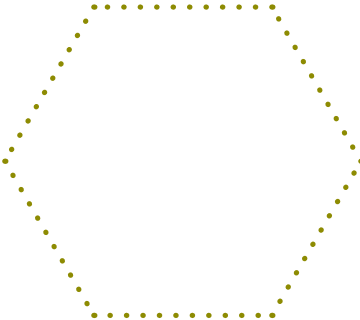

Bolt Frame – Solid Color Fill

Bolt Frame – Color Fill with Product in Front

Bolt Frame – Color Fill with Callout

**Bolt Frame – 2 pt.
Dotted Outline**

**Bolt Frame – Photo Fill with
Overlapping Stroke Frame**

**Bolt Frame – Photo Fill with Color Overlay
and Overlapping Product in Lower Right**

How to use Bolt Frames correctly:

- Use the bolt frame as-is, as a hexagon with six sides
- Bolt frames may be used with a solid color or image fill, or as a dotted or stroked outline frame
- Reference examples of how the bolt frames can be used as a stand-alone graphic or layered and overlapping to create visual interest.

ELEMENTS (CONT.)

Additional graphic elements offer more ways to give your marketing materials impact and tell stories of Ruud reliability.

Feature Flags

The Feature Flags provide a useful graphic element for highlighting key information. They can be created from any color within the Ruud brand color palette.

Metallic Bars

The expanded set of Metallic Bars helps express the rugged durability of our brand. These elements may be used in a variety of ways to best fit your layout—horizontally, vertically and with or without Reliability Bolts.

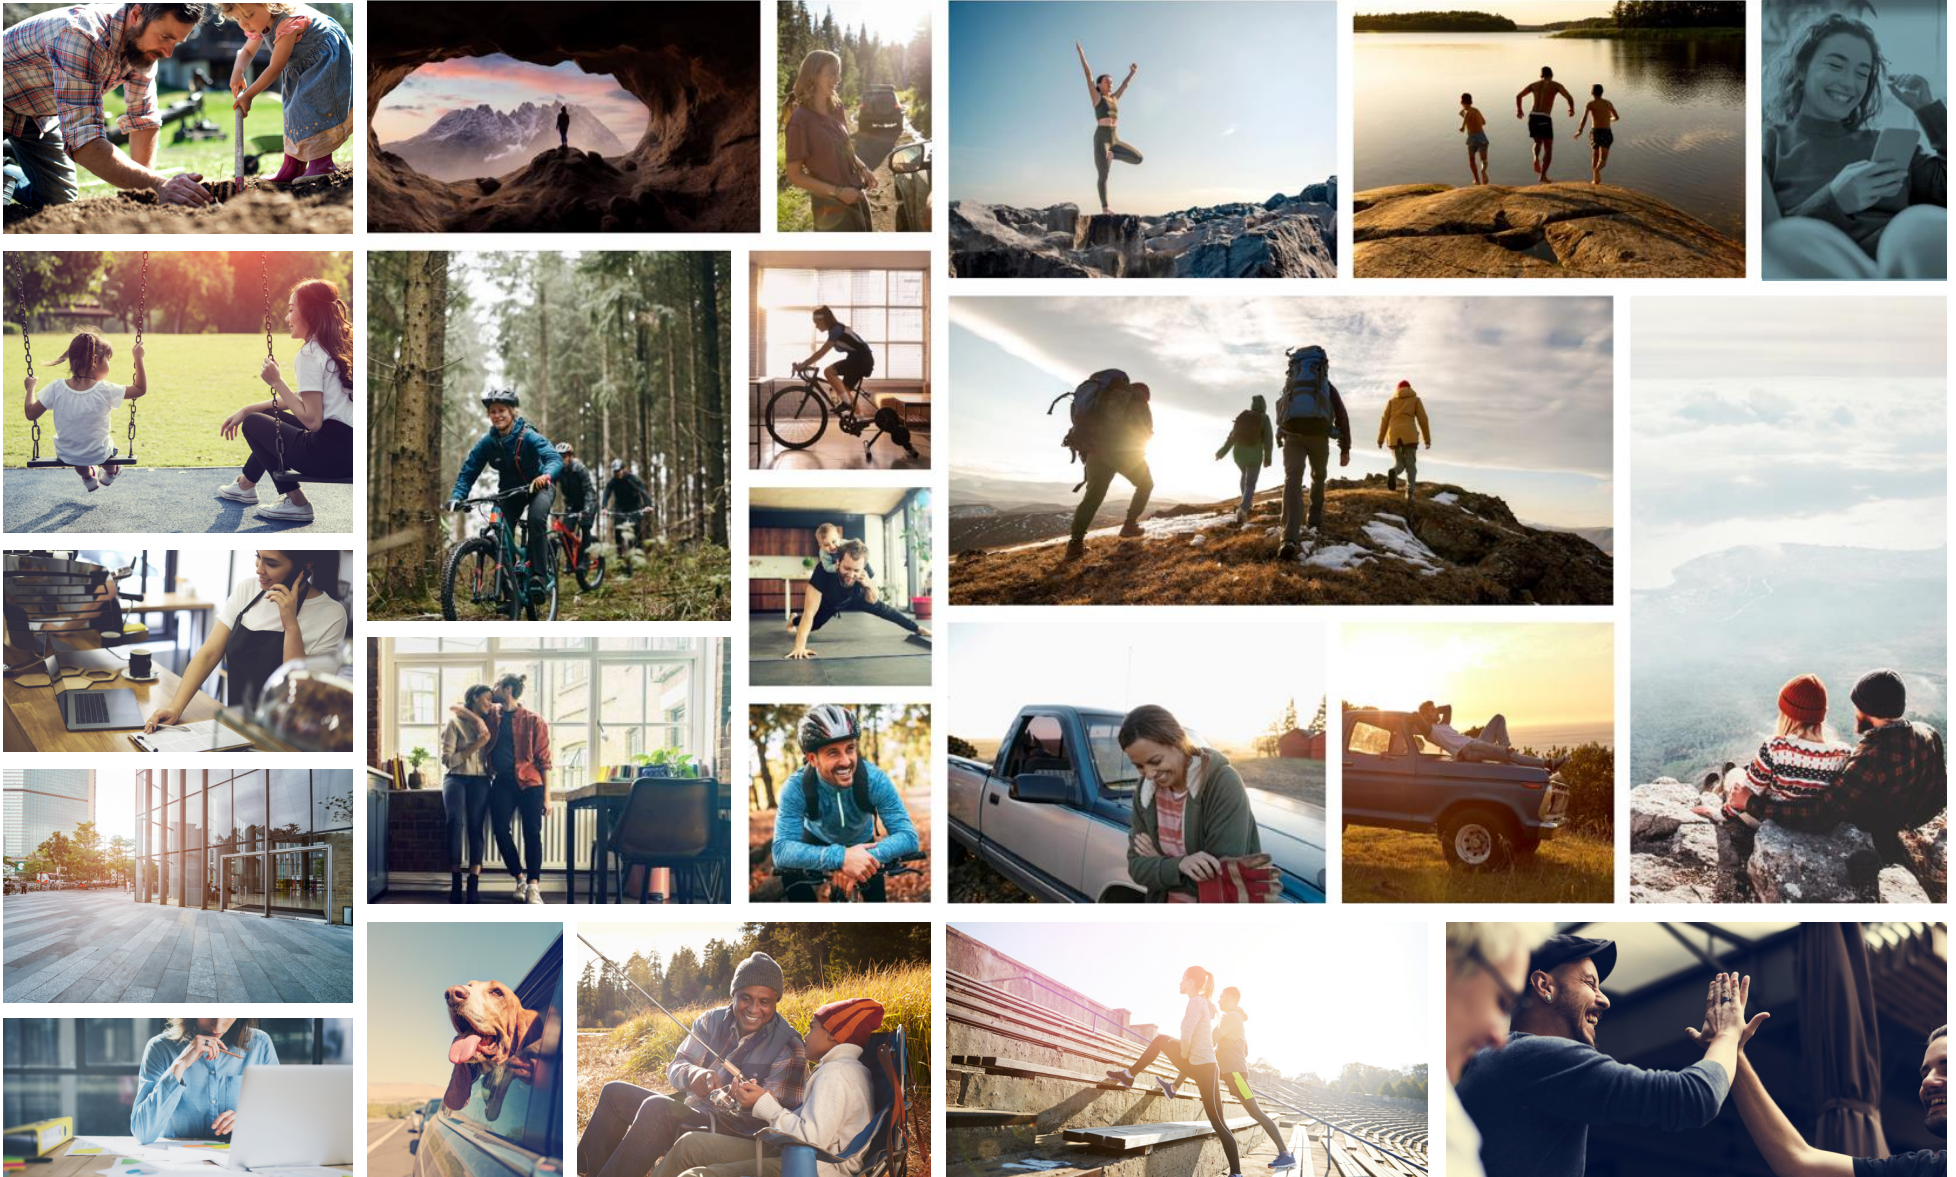

Dynamic Diagonal

The Dynamic Diagonal provides an additional way to bring visual direction leading your eye to an area of focus.

PHOTOGRAPHY

Rely on Ruud means just that—our long-lasting products are designed to be relied on, whether at home or at work. Photography should convey this same sense of strength and reliability, showing people that are confident, active and full of life. Imagery should be lifestyle-focused, unposed and candid. Indoor shots and outdoor shots are acceptable and should feature natural lighting, organic textures and on-the-go adventure when showing outside views.

IMAGERY

Dramatic hero images and engaging lifestyle photography bring stories of innovation and reliability to life. Applying bold graphic treatments to these visuals further strengthens the brand, elevating the level of quality our solutions deliver to customers.

Product Grounding Shadows

Products should have Grounding Shadows appropriate for their placement on a wall or on the floor. For visual impact, the Grounding Shadows should be similar in appearance to the examples shown above.

Full-Color Photography

Full-color photography can be used to help tell compelling stories for both consumer and trade audiences.

Color Overlay

Colors from the approved Ruud palette may be applied over black and white photography to create a visually impactful background or a highlight.

HEADLINES

To represent the strength and durability of the Ruud brand, headlines should be built using A Love of Thunder font in bold, uppercase format. For longer headlines, you may use A Love of Thunder paired with the Roboto font, in all uppercase format. See example shown below.
